

## Cornerstone Pediatrics Portal Information

Our patient portal is now available for each family to access. This secured portal is a way for you to conveniently access your child's account as well as maintain your personal information. By setting up your access to our patient portal you will be able to access your child's current immunizations, lab work, and most current health forms as well as general health information.

To set up access you will need to go to [cornerstonepediatrics.patientmedrecords.com](http://cornerstonepediatrics.patientmedrecords.com). You will then need to create an account. Please note that in order for you to properly access your child's portal you must use the email address that you have provided to the front office at your last visit. If you are unsure of the email you provided, please contact us to verify the address on the account. Please only set up one account per family, if your family needs more than one access, please contact the front office.
